## DECLARE THE ESTABLISHMENT OF THE GROUP OF THE FRIENDS OF THE SALZBURG FORUM FROM THE WESTERN BALKANS

The Friends of the Salzburg Forum is a **platform for dialogue and cooperation** between the Salzburg Forum countries. In this regard, a meeting was held on the 21 September 2007 in Pleven with representatives from the Western Balkan countries.

The relations with the neighbouring regions are of a particular interest to the Salzburg Forum countries, and to the EU as a whole, and are aiming at enhancing the internal security through further development of the regional cooperation.

The cooperation between the Salzburg Forum and its Friends is based on a balanced and flexible approach, aiming to ensure maximum coordination and coherence in their joint activities, thus avoiding unduly duplication and overlap of efforts and resources.

The common goal of the Salzburg Forum countries and their Friends from the Western Balkans is to enhance the level of security of the citizens and to contribute to the further stabilisation of the region.

The additional strengthening of mutual trust is one of the most important prerequisites for an active and successful partnership.

The Salzburg Forum countries will actively support their Friends from the Western Balkans on their way to European integration. They will also encourage and assist them in the adoption and effective implementation of European standards and practices in the field of justice and home affairs, and more specifically towards achieving the European security standards regarding fight against terrorism, organised crime, corruption and illegal migration, building upon the results achieved so far.

The basic approach in the activities of the Salzburg Forum regarding its Friends will be a thematic one, defined by issues of common interest. In such cases, the Friends from the Western Balkans will be invited to meetings in the framework of the Salzburg Forum.

The Friends from the Western Balkans on their part will inform their partners from the Salzburg Forum on their initiatives, activities and projects within in framework of other fora for cooperation, including on the progress in the implementation of joint activities with the EU. Possibilities for implementing projects within the framework of the new Instrument for Pre-accession Aid (IPA) can be discussed.
